

AMERICAN AUGERS®

an Astec company

Quik Tran™

Patented Auger Boring Technology

Patent No. 7134513/7255406

Quik Tran™

UPGRADE non-Quik Tran™ or competitor model auger boring machines for **MORE SPEED** and **MORE PROFIT** potential.

CONVENIENT: Push the lever and GO! No cables or winching required. The Quik Tran™ system directly engages the boring machine track.

EXCLUSIVE: The Quik Tran™ system is available only from American Augers

POWERFUL: Quik Tran™ provides 10,000 lbs. (4,536 kg) of push/pull force

RACK AND PINION DESIGN: The Quik Tran™ system provides perfect machine traction for maximum uptime!

PRODUCTIVE: The Quik Tran™ system will increase the overall productivity of the machine. Pull auger, add new sections of auger, and push product into casing without the lost time associated with dogging and connecting the winch!

EASIER: The Quik Tran™ system permits easier machine operation in challenging work climates and conditions.
